

# ORWAK MULTI 9020

MULTI

## CREATE YOUR OWN MINI RECYCLING STATION WITH THE ORWAK MULTI 9020!

This multiple-chamber solution provides sorting and compaction of different types of materials in one unit! The chambers allow for a lot of material and the system can easily be extended by adding additional chambers.

## Multi-chamber

## Orwak benefits

### MORE PRODUCTIVE USE OF TIME

Less time spent on waste handling, more time for your core activities!

### MORE SPACE & ORDER

Our balers rapidly minimize the space the waste takes up, keeping aisles free and tidy.

### LESS COSTS, MORE VALUE

More compaction = less waste volume to transport. Fewer transports required results in lower transportation costs and reduced CO<sub>2</sub> emissions. Sorting at source yields a higher quality of waste material for recycling.

## Why Orwak Multi?

- + Sorting and compaction of several waste types at source
- + Top-loading of the material in open chambers
- + Total freedom to increase capacity by adding additional chambers

# ORWAK MULTI 9020

## Multiple-chamber solution

This is a top-loading, multi-chamber solution that forms a mini recycling point. By using one chamber for each type of material, it is easy to sort and compact materials at source.

The press force can be regulated individually for each chamber, according to the material.

### HIGH-CAPACITY SYSTEM

The 9020 is a powerful machine with large chambers and generous loading apertures. It provides effective volume reduction of large amounts of recyclables.

### EFFICIENCY

Whilst the baler compacts the material in one chamber, the other is open and ready to be fed with more material!

### ORWAK MULTI 9020 IS OPTIMIZED FOR:

#### PAPER

- + Paper sacks
- + Cardboard
- + Shredded paper

#### PLASTIC FOIL

- + Shrink film
- + Plastic bags

#### METAL CANS

- + Food cans
- + Paint cans

#### OTHER METALS

- + Steel straps

#### PLASTIC CONTAINERS

- + Pet bottles

### EXTENDABLE SYSTEM

It is easy to add additional chambers to extend your sorting and compaction system, and increase its capacity further. When your business expands and your needs change, let your waste handling system grow at the same pace!

### BALE INDICATOR

A bale indicator alerts you when the machine has reached its capacity.

## DIMENSIONS & SPECIFICATIONS

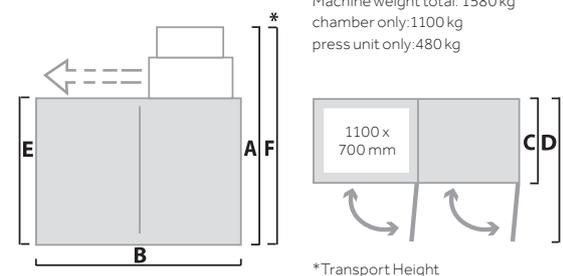

### DIMENSIONS

| A       | B       | C                           | D       | E       | F*      |
|---------|---------|-----------------------------|---------|---------|---------|
| 2470 mm | 2480 mm | 968 (1135 <sup>1</sup> ) mm | 2175 mm | 1380 mm | 1900 mm |

<sup>1</sup> Including strap holders

### ENERGY CONSUMPTION

| STANDBY MODE | MAXIMUM OPERATION ONE HOUR |
|--------------|----------------------------|
| 2.7 W/H      | 800 W/H                    |
